

Silence, is there such a thing?
by Willy Gilder

Hello darkness my old friend
Will be forever the baby boomer anthem.
We thought it so meaningful
It's tale of urban alienation.
But if truth be told, I've no idea what it really means.
For heaven's sake, how can silence have a sound,
And why did it matter so much to a young Paul Simon?

Those anthems take on lives of their own.
All We Are Saying Is Give Peace A Chance.
War Is Over If You Want It.
Well, what a load of old bollocks.

Everyone in Ukraine wants the war to be over.
Their nights aren't split by the Sounds of Silence,
But by Russian Cruise Missiles.
Their prayers to St John and the Holy Yoko
Are for all the world to live in peace, just imagine:
But Putin ain't listenin'
